

**A Companion to the Acts of the Tenth European Symposium
on Medieval Logic and Semantics.**

Introduction

The Tenth European Symposium on Medieval Logic and Semantics took place in Nijmegen, the Netherlands, in June 1992. The theme was "The Tradition of Aristotle's *De interpretatione* in the Latin Middle Ages". As usual, several of the papers read relied on unpublished sources. In order not to make the acts of the symposium unwieldy, it was decided to print a number of the Latin texts separately.

The following editions by Iwakuma, Rosier, Ebbesen and Roncaglia are supplements to the editors' respective papers in the forthcoming acts of the symposium, and for this reason introductory matter has been limited to a minimum.
